

RoadRunner™ Mobile

RoadRunner Mobile provides remote access to live and playback video from any networked RoadRunner DVR (Digital Video Recorder). Ideal for portable remote monitoring and maintenance of video camera systems on transit buses, police cars, trains, school buses, light rail vehicles and facilities, RoadRunner Mobile is compatible with any TCP/IP based network.

The RoadRunner Mobile app can be used over Wi-Fi or cellular networks for use with iPad®, iPhone® or iPod® Touch.

Available on the
App Store

Portable Remote Access: Provides transit personnel and first responders with live data for emergency and incident response along with the ability to review recorded video of past incidents.

Onboard Maintenance: Easy and portable method for maintenance personnel to ensure camera views are adjusted properly.

Network Compatibility: Compatible with any TCP/IP based network, RoadRunner Mobile can be used over Wi-Fi or cellular networks with iPad, iPhone or iPod Touch.

Fleet-Wide Access: RoadRunner Mobile allows you to view any camera on any networked RoadRunner DVR system.

Secure: Password protection provides secure, restricted access.

Stores Data: A "favorites" list provides instant access to frequently viewed systems. RoadRunner Mobile supports connections using DVRNS (DVR Name Service) when available.

iPad, iPhone and iPod Touch are trademarks of Apple Inc., registered in the U.S. and other countries.
