**Apollo Video Technology Recognized as Market Leader in Transit Bus Video Surveillance**

*Earning its Third Consecutive Top Ranking, IHS Inc. Reports Apollo Video as Top Supplier*

**Bothell, Wash. – November 2, 2015** – [Apollo Video Technology](http://ApolloVideoTechnology.com) (Apollo Video) has been named the transit bus market leader in the Americas according to the 2015 edition of the World Market for Mobile Video Surveillance Equipment report. Released by IHS Inc., a global business information and analytics provider, the report ranks companies based on annual sales revenue and is published every-other year. For the third consecutive time, Apollo Video was recognized as the market leader in the Americas, an achievement held since 2010. In addition to being the lead supplier for bus video surveillance, Apollo Video also increased its market share for mobile video surveillance onboard trains and trams by three percent.

“We are honored to receive this designation. This accomplishment reflects our company’s determination to earn and maintain the support and trust of our transit partners,” said Rodell Notbohm, CEO of Apollo Video Technology. “The result of gaining and fortifying such partnerships is evident through the collaborative advancements in our mobile video surveillance solutions. As an industry leader, we strive to not only solve our customer’s safety and security needs, but improve their operational efficiencies as well – ultimately saving them valuable time and money. With this acknowledgement, their collective approval rings loud and clear.”

A leading manufacturer of mobile video surveillance technology since 2004, Apollo Video offers solutions that deliver exceptional video quality along with software optimized for fast wireless downloading capabilities, live video streaming and easy management of video evidence. With the release of RoadRunner HD™ in 2014, Apollo Video added to its suite of solutions a mobile video system featuring state-of-the-art high definition recording optimized for mobile applications. Such offerings supply transit agencies with a complete video surveillance solution that addresses both operational effectiveness and safety for passengers and operators alike.

**About Apollo Video Technology**

Apollo Video Technology is a leading manufacturer of video surveillance, fleet and information management solutions for public transit, rail, school transportation, law enforcement, military, commercial transportation, fire and EMS applications. With public and private-sector installations throughout North America and worldwide, the RoadRunner™ mobile video and audio recording system provides exceptional video quality with management software optimized for wireless downloading and live video streaming.

Renowned for its reliability, durability and ease of use, Apollo Video solutions improve accessibility of data and deliver streamlined, fleet-wide management of video surveillance and on-board equipment to reduce liability, mitigate risk, improve efficiency and reduce maintenance and operating costs. Apollo Video is unique in the industry with software interoperability and compatibility across multiple generations of hardware.

In 2013, Apollo Video was named the No. 1 supplier of transit bus mobile video surveillance equipment in the World<sup>1</sup> and continues to be the No. 1 supplier in the Americas, since 2010 - an achievement that further supports the company's commitment to offer its customers superior, compatible solutions throughout the lifetime of their fleet.

Since its release in 2004, Apollo Video has supplied the RoadRunner™ system to over 375 agencies worldwide, representing more than 25,000 implementations.
