**Apollo Video Technology Honored with Seattle Business Magazine's Tech Impact Award**

*Company's Video Surveillance Solutions Receive Top Prize in Security Category for Promoting Safety and Minimizing Operational Costs*

**Bothell, Wash., September 25, 2015** – [Apollo Video Technology](http://ApolloVideoTechnology.com) (Apollo Video), a leading manufacturer of mobile video surveillance solutions, was named the gold winner of *Seattle Business Magazine's* Tech Impact Awards in the Security category. The award recognizes companies in Washington state that are using technology to significantly impact business, industry or society. *Seattle Business Magazine* selected Apollo Video for its mobile video surveillance system and supporting software management solution.

"Apollo Video is committed to providing innovative, cutting-edge security solutions that benefit our customers," said Rodell Notbohm, CEO of Apollo Video Technology. "We are all honored to receive this recognition along with other top-notch, local companies, and are determined to continue conceiving new ideas that advance security and public safety."

Apollo Video is partnered with more than 25 public transit agencies across Washington state including King County Metro, Whatcom Transit, Skagit Transit, the Clark County Public Transit Benefit Authority (C-TRAN), Everett Transit, Pierce Transit and Sound Transit.

Apollo Video offers agencies technologically advanced video solutions that enhance safety, deliver comprehensive video evidence, and increase the efficiency of operations. Such capabilities have become crucial to fleet operations nationwide, especially as the use of camera surveillance on buses and trains has begun to extend beyond the core requirements of safety and security to include planning and scheduling, maintenance, and training programs.

The RoadRunner™ mobile video and audio recording system, Apollo Video's flagship solution, affords exceptional video quality with management software optimized for fast wireless downloading and live video streaming. With the release of RoadRunner HD™ in 2014, Apollo Video delivers a state-of-the-art mobile video platform with true high definition, long-term storage and optimal network performance. These solutions ensure that transit safety and security address not only passengers and drivers, but also improve agency operations and validate liability claims, a key tenet that drives Apollo Video's strategy.

Apollo Video was honored at *Seattle Business Magazine's* Tech Impact Awards dinner on September 24, 2015, in front of an audience of more than 300 tech leaders and senior executives. The Tech Impact Awards also recognized the breakthrough work by companies in fields that included Enterprise, Mobile, Education and Software as a Service industries.

### **About Apollo Video Technology**

Apollo Video Technology is a leading manufacturer of video surveillance, fleet and information management solutions for public transit, rail, school transportation, law enforcement, military, commercial transportation, fire and EMS applications. With public and private-sector installations throughout North America and worldwide, the RoadRunner™ mobile video and audio recording system provides exceptional video quality with management software optimized for wireless downloading and live video streaming.

Renowned for its reliability, durability and ease of use, Apollo Video solutions improve accessibility of data and deliver streamlined, fleet-wide management of video surveillance and on-board equipment to reduce liability, mitigate risk, improve efficiency and reduce maintenance and operating costs. Apollo Video is unique in the industry with software interoperability and compatibility across multiple generations of hardware.

In 2013, Apollo Video was named the No. 1 supplier of transit bus mobile video surveillance equipment in the World<sup>1</sup> and continues to be the No. 1 supplier in the Americas, since 2010 - an achievement that further supports the company's commitment to offer its customers superior, compatible solutions throughout the lifetime of their fleet.

Since its release in 2004, Apollo Video has supplied the RoadRunner™ system to over 375 agencies worldwide, representing more than 25,000 total implementations.
