Apollo Video Technology to Showcase Innovations in Transit Video Security, Including Full High Definition, 1080p Resolution

Company demonstrates advancements of RoadRunner system at APTA Annual Meeting Product Showcase

Los Angeles – September 12, 2016 – [Apollo Video Technology](http://ApolloVideoTechnology.com) (Apollo Video), a leading manufacturer of mobile video surveillance systems, will exhibit (booth #306) at the American Public Transportation Association (APTA) 2016 Annual Meeting Products and Services Showcase, September 11-14 in Los Angeles.

Featuring up to 8.0TB of storage and full high definition (HD) resolution (1080p) from up to 16 cameras, Apollo Video's RoadRunner HD™ mobile recording system ensures video is captured at exceptional quality while maintaining long term storage. Additionally, the RoadRunner HD's dual-stream recording feature simultaneously records at various rates providing the perfect balance of full HD video for critical events while maintaining the longest onboard recording duration.

"Mobile video security is crucial to transit operations nationwide. The RoadRunner HD system, now supporting 1080p resolution and views from as many as 16 cameras, ensures transit agencies don't miss or question a moment of activity on-board and surrounding its fleet of vehicles," said Rodell Notbohm, CEO of Apollo Video Technology. "We understand the need for higher quality video and longer recording durations and are committed to delivering technologically advanced solutions that enhance safety and increase the efficiency of operations."

APTA's Annual Meeting is the flagship event for public transportation professionals to engage in educational sessions, workshops, tours, and networking opportunities with colleagues. Apollo Video staff will be on-site (booth #306) demonstrating the full capabilities of its innovative software and hardware.

About Apollo Video Technology

Apollo Video Technology is a leading manufacturer of video surveillance, fleet and information management solutions for public transit, rail, school transportation, law enforcement, military, commercial transportation, fire and EMS applications. With public and private-sector installations throughout North America and worldwide, the RoadRunner™ mobile video and

audio recording system provides exceptional video quality with management software optimized for wireless downloading and live video streaming.

Renowned for its reliability, durability and ease of use, Apollo Video solutions improve accessibility of data and deliver streamlined, fleet-wide management of video surveillance and on-board equipment to reduce liability, mitigate risk, improve efficiency and reduce maintenance and operating costs. Apollo Video is unique in the industry with software interoperability and compatibility across multiple generations of hardware.

In 2015, Apollo Video was named the No. 1 supplier of transit bus mobile video surveillance equipment in the Americas¹ – an achievement held since 2010 that further supports the company's commitment to offer its customers superior, compatible solutions throughout the lifetime of their fleet.

Since its release in 2004, Apollo Video has supplied the RoadRunner™ system to over 400 agencies worldwide, representing more than 25,000 total implementations.
