Apollo Video Technology Honored with 2016 'ASTORS' Homeland Security Award

RoadRunner HD™ System Earns Silver Award for "Best IP Video Surveillance Solution"

Bothell, Wash., November 9, 2016 – [Apollo Video Technology](#) (Apollo Video), a leading manufacturer of mobile video surveillance and fleet management solutions received honors for the RoadRunner HD system from *American Security Today's* 2016 'ASTORS' Homeland Security Awards.

"Smart video monitoring systems play a critical role in improving public safety for mass transit, and advancements in mobile video technology have security personnel demanding more from their onboard recording equipment," said Rodell Notbohm, CEO of Apollo Video Technology. "The RoadRunner HD video surveillance system is built with a forward-thinking approach to design and functionality, equipping transit agency officials and first responders with deeper insight into managing public safety."

As the only solution that has the ability to adapt to the ever-growing security needs of government, law enforcement and mass transit agencies nationwide, [RoadRunner HD](#) offers a robust solution towards mitigating threats. It provides all the high-quality features of an advanced IP system, but in a plug-and-play format that is easy to install – requiring little to no programming or networking expertise.

The state-of-the-art recording system is wireless-ready for secure live viewing and playback from command centers and remote locations – without sacrificing video quality. Detailed meta-data makes pinpointing relevant video easy, ensuring administrators can quickly download and release pertinent footage to authorized officials and/or media to support identification efforts.

American Security Today's Homeland Security Awards program recognizes the most distinguished vendors of IT, port security, law enforcement and first responders in acknowledgment of their outstanding efforts to address the growing homeland security threats the country faces.

About Apollo Video Technology

Apollo Video Technology is a leading manufacturer of video surveillance, fleet and information management solutions for public transit, rail, school transportation, law enforcement, military, commercial transportation, fire and EMS applications. With public and private-sector installations throughout North America and worldwide, the RoadRunner™ mobile video and audio recording system provides exceptional video quality with management software optimized for wireless downloading and live video streaming.

Renowned for its reliability, durability and ease of use, Apollo Video solutions improve accessibility of data and deliver streamlined, fleet-wide management of video surveillance and on-board equipment to reduce liability, mitigate risk, improve efficiency and reduce maintenance and operating costs. Apollo Video is unique in the industry with software interoperability and compatibility across multiple generations of hardware.

In 2015, Apollo Video was named the No. 1 supplier of transit bus mobile video surveillance equipment in the Americas¹ – an achievement held since 2010 that further supports the company's commitment to offer its customers superior, compatible solutions throughout the lifetime of their fleet.

Since its release in 2004, Apollo Video has supplied the RoadRunner™ system to over 400 agencies worldwide, representing more than 30,000 total implementations.
