

RoadRunner HDX™ Rapid Deployment Kit Portable High Definition Mobile Recording System for Security and Law Enforcement

The RoadRunner HDX Rapid Deployment Kit delivers the clearest, highest quality video, optimal network performance and easy installation in security and law enforcement applications. Supporting live 360° views from PoE megapixel cameras with ruggedized M12 connectors, the RoadRunner HDX Mobile Recorder is Mil-Spec, SAE rated and EMC compatible — providing the most user-friendly and technologically advanced solution for rapid deployment.

LIVE STREAMING CAPABILITIES

RoadRunner HDX provides superior video streaming capabilities, is wireless-ready for use with any TCP/IP based network, and is compatible with existing wireless 802.11 and cellular devices for live streaming.

SUPERIOR FLEXIBILITY

Supporting rapid set-up for tactical and field deployments, the RoadRunner HDX system is available in several compatible and interchangeable formats for recording four or eight high definition cameras.

RUGGED AND RELIABLE

Designed and manufactured specifically for military and government vehicle or mobile ground-based applications, each deployment kit is Mil-Spec, SAE rated, and EMC compatible for proven durability and reliability in harsh mobile environments.

COMPLETELY DIGITAL

High definition video delivers the clearest, highest quality video. The system provides all the superior features of an IP system — but in a plug and play format that is easy to install (no programming or networking expertise is required).

RsM (RoadRunner Secure Management) Software™

Seamless administration, remote viewing and playback of RoadRunner Recorders and DVRs.

Fleet-Wide Administration:

- Fleet-wide system updates and programming
- Health reports and email notification for events, failures, hard drive status, camera obstruction and more
- Easily export configuration information for use with other machines and /or remote sites
- Compatible with the latest RoadRunner Recorders for fleet-wide compatibility and easy management

Remote Viewing:

- View multiple vehicles and sites simultaneously from virtually any location
- Simultaneously transmit live and playback video from hundreds of video sources
- Call-back feature provides live images to a central location during emergency events

User-Friendly Search Tools:

- Search by time and date or use the advanced tools for easy searching using the interactive calendar, event, location and/or vehicle speed
- Location-based search tools feature historical map location and speed data

Secure Video Clips:

- Create secure, tamper-proof video clips with optional password-protection to restrict viewing access
- Archived video clips are encrypted and include an embedded player — no downloads or software required for viewing

Customizable:

- All functions are password protected with adjustable access rights for up to 256 users and 64 groups
- Auto-Connect and 'Favorites' features provide instant access to most frequently viewed sites
- Adjustable display and multi-screen support provides customizable viewing panes

Included:

- No additional charge
- License-free for unlimited users
- Lifetime updates at no additional charge

RoadRunner HDX™ Rapid Deployment Kit

Designed specifically for use in mobile security and law enforcement applications, the steel-constructed RoadRunner Mobile Video Recorder is Mil-Spec, SAE rated and EMC compatible for proven durability and reliability in harsh environments. The system is easy to use and install, provides superior high definition video and delivers years of reliable operation. With support for PoE megapixel and analog cameras, RoadRunner HDX systems support up to 8 cameras and 2 audio inputs.

Standard Features:

- High definition recording up to 1280x720 — adjustable for each camera
- PoE megapixel cameras with sealed, all-weather M12 connectors
- Four dual or eight single cameras
- Mil-Spec and SAE rated for shock and vibration
- ECM compatible with the lowest rated emissions for sensitive military applications
- Recording rates up to 480 HD images per second (ips) plus an additional 480 W-CIF ips, system-wide
- Built-in three-axis accelerometer
- Interactive speed and mapping interface provides easy searching built-in or external GPS receiver
- Integrated event switch with 'heartbeat' health indicator

- License-Free RsM™ (RoadRunner Secure Management) Software included for easy remote viewing, playback and administration
- Video is encrypted to ensure authenticity
- Wireless-ready for use with any TCP/IP based network
- Included RsM Software is backward compatible with the latest standard RoadRunner systems, providing a seamless, fleet-wide solution

360° COVERAGE (Inside/Outside vehicle)

Optimal Quality Recording:

Provides the perfect balance of high definition recording and long-term storage. High definition and long-term video streams are recorded simultaneously, ensuring the highest quality video is available for critical incidents while maintaining the longest onboard recording duration.

Completely adjustable and customizable to your recording needs — a slider bar automatically calculates estimated storage for both High Quality and Long-Term Recording streams.

Captures short-term video for critical events at the highest resolution, delivering the clearest, high definition for essential video evidence.

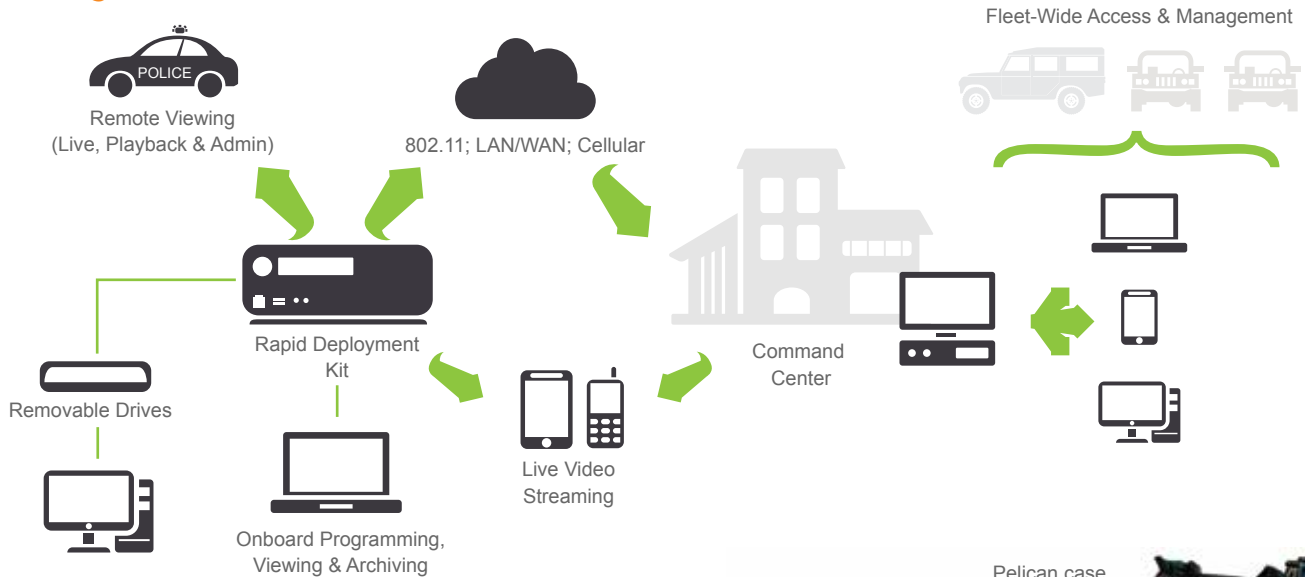

Simultaneously records standard definition for an extended period of time storing long-term video for weeks or months to easily fulfill data retention requirements.

IDEAL FOR A WIDE VARIETY OF RAPID DEPLOYMENTS

The RoadRunner Rapid Deployment Kit features several high definition camera options designed for 360° video coverage. All systems are fully compatible, interchangeable and utilize the same software — regardless of the numbers of cameras supported, providing an ideal fleet-wide solution.

System Diagram

RoadRunner HDX™ Rapid Deployment Kit, Models

Designed for quick and temporary self-installation

RR-HDXRDK-1000S1

- Mobile recorder supporting up to eight cameras
- Removable 1.0TB solid-state drive
- Cellular router with antenna
- GPS with serial connection
- Power cable, including SmartStart and alternative power supply
- Event Button
- License-free RsM™ Software
- 3m Ethernet Cable
- Pelican Case

RR-HDXRDKDC-1000S1

- Mobile recorder supporting up to eight cameras
- Removable 1.0TB solid-state drive
- Dual Cellular router with antenna
- GPS with serial connection
- Power cable, including SmartStart and alternative power supply
- Event Button
- License-free RsM™ Software
- 3m Ethernet Cable
- Pelican Case

RoadRunner Rapid Deployment Cameras

Mini HD Camera

- High Definition
- Auto-Connect
- Low profile, discrete visibility
- ECM Compatible
- IP67
- IR Illumination - Day/Night Operation

HD Panoramic Camera

- High Definition
- Auto-Connect
- ECM Compatible
- Compact Design
- IP67
- Panoramic Video
- Dual Camera Modules
- IR Illumination - Day/Night Operation

RoadRunner HDX™ Recorder

- 1280x720 recording resolution
- Simple plug-and-play format for easy installation
- Mil-Spec and SAE rated
- ECM compatible
- Wireless-ready for live video streaming
- 1.0TB removable storage with optional redundant solid-state dual drives
